*Chamberlin Earns Leadership in Energy & Environmental Design  
Accredited Professional Status (LEED AP)*

June 25, 2009 + MINNEAPOLIS, MN

**Wendel Chamberlin, AIA** was awarded LEED Accredited Professional status upon successful completion of the LEED-NC exam.

The U.S. Green Building Council (USGBC) coordinates the development of the LEED Green Building Rating system, a national consensus effort to provide the building industry with tools to transform the way buildings are designed, built and operated, enabling an environmentally and socially responsible, healthy and prosperous environment that improves the quality of life.

Wendel Chamberlin is founder and CEO of WC Consulting Inc. Started in 2002 WC Consulting Inc. provides project specifications to architects and product specifications to manufacturers.

He received bachelors and masters degrees in architecture from the University of Wisconsin—Milwaukee. He is a registered architect in Wisconsin and is NCARB registered. Chamberlin is a Certified Construction Specifier and a past president of the Kansas City Chapter of the Construction Specification Institute (CSI).
